

Mill dam owners, farmers, fishermen and the ecological continuum: how to decide between them? The answer of infiltration, river-aquifer flow and denitrification in a natural wetland.

LEGEND of the Aquifer map

- Aquicludes
- River network
- Alluvium
- Cenomanian: sands
- Oxfordian: limestones
- Dogger: ● limestone (Bajocian+Bathonian)
● arkose and gravels (Aalenian)
- Hercynian bedrock: sandstone and schist
